### Touch International Wins 3 Year \$1 Mill. Contract from US Air Force

Posted by [editor](#) on Tuesday, October 22 @ 12:47:34 EDT

Touch International, Inc., a global touch screen supplier, announced that the United States Air Force awarded the company a contract to manufacture 17" analog resistive touch screens for the military's Air Command and Control Center. The contract is expected to generate over \$1 million in revenue during the course of the three-year agreement. Touch International, Inc. is a privately held, worldwide supplier of high-quality touchscreen components.

"We're pleased to have been selected to support America's military needs for touch technology," stated Michael Woolstrum, Touch International President and CEO. My experience servicing the US Air Force began in 1989, when I built some of the first touch screens for this Tactical Area Operations Center (TAOC) project. We are looking forward to working with the Air Force once again."

The touch screens are engineered

and manufactured through the company's Custom Solutions Center (CSC) in Austin, Texas. CSC exemplifies the company's core competency in developing and manufacturing advanced touch products for rugged applications—military, medical, industrial, and aerospace. The company also offers a diverse range of standard products, including: 4-wire resistive, 5-wire resistive, pen-input resistive, XGT capacitive, and ruggedized capacitive touch screens.
